MEMORANDUM FOR: Legislative Counsel

SUBJECT: S. 37, A Bill to Protect the Security of the  
United States by Preventing the Employment  
by the United States of Persons Found to be  
Disloyal to the United States

The proposed legislation would permit the Civil Service Commission, a newly established Loyalty Review Board, and the Federal Bureau of Investigation to investigate and determine the eligibility of applicants and employees for Government employment from a loyalty standpoint. It seems to us that an exception to provide for continuation of our present security investigation processes would be in order but would defer to the views of the Director of Security on this point.
